

# FOLDABLES

## PURPOSE:

Help students organize information, show or communicate learning and increase student ownership of learning. Provide tools to visually represent relationships in text. Help students write well-organized summaries of text.

## PROCEDURE:

Students are actively engaged in the instructional process and learning as they create foldables. Foldables are 3-dimensional graphic organizers that help students organize, remember, review, and learn many kinds of information.

# FOLDABLES

## Vocabulary Book

Fold a sheet of notebook paper in half like a hot dog. On one side, cut every third line to create tabs. You can adjust the number of lines depending on the paper and the desired size of the tabs. Label the tabs with vocabulary words and write the definitions underneath.

## Layered-Look Book

Stack two or more sheets of paper so that the top edges are an equal distance apart. Bring the bottom edges up and align the sheets so that all of the layers (or tabs) are the same distance apart. Fold and crease well to form the Layered-Look Book. Use glue or staples to hold the sheets together. Students can label the tabs and record information inside the Layered-Look Book.

## Folded Table or Chart

Fold a sheet of paper in half (for two columns), then in half again (for four columns). Do the same in the other direction for the desired number of rows, or simply make one fold along the top for column headings.
